The Personal Development curriculum is designed to be diverse, modern and engaging. It is a curriculum that supports all students to become successful global citizens with the skills, knowledge and confidence to have a positive impact on our community. Inclusion is at the heart of our curriculum, which has been specifically designed for our vibrant, culturally rich and diverse cohort. We want our students to embrace and challenge different aspects of society through understanding, reflection upon previous experiences and making the most of the numerous opportunities provided to explore the skills, concepts and experiences required for the next stage of their educational journey
